

February

Rose Care Guide

We present our **step-by-step guide** to make sure your roses are ready for February and ready to thrive for the new year! **Moon Valley Nurseries** has been selling 100's of varieties of roses since 1995. We have become a trusted source in landscape design and care all across the Southwest.

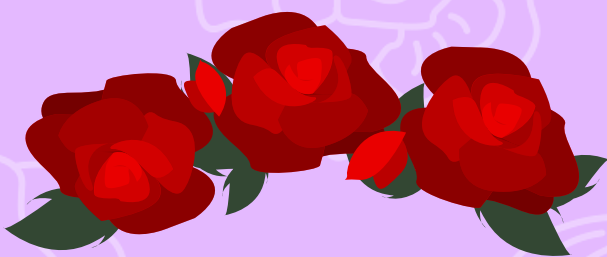

PLANT

- Plant roses with full sunlight
- Do not place too close to trees or large shrubs

PRUNE/WEED

- Prune roses back
- Remove dead or over-stressed foliage
- Clean up all leaves and petals and discard
- Pull and Remove all weeds around roses
- Apply 2 - 3 inches of mulch

*Do not prune climbing varieties

FERTILIZE

- Regular fertilizing is required for optimal blooms
- Fertilize with a dry slow-release product

Recommendations

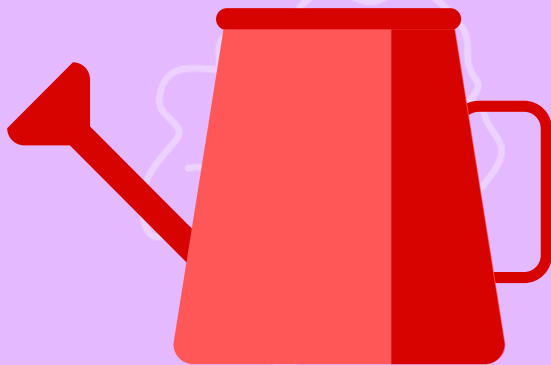

- Moon Dust - All-purpose fertilizer
- SuperCharged Moon Juice - Growth enhancer

WATER

- Deep water your roses at least once a week
- Be sure the entire root is watered (16 in. deep)

To conserve water, **apply** 2 - 4 in. of mulch at the base of your roses
